Delivery **Thu 12. Nov - Fri 13. Nov 2026**

Product information

Dimensions: diameter 1.06 inch
Grain: 6000
Garnet: 30%

Application:
With the slurry stone you create the unique, natural sharpening paste on your big blue bench stone.
Just put some water on the bench stone and move the grindstone in circular motion.
By friction arises from the water, slate and naturally stored grenades (Spesartines)
a sharpening paste (slurry).
The sharpening paste remains on the surface of the dense natural stone and is the basis for a simple and efficient polishing of your knives and tools.
After polishing, you can simply rinse the paste off the stone with clear water again.

Your slurry stone is delivered in a cotton bag with sharpening instructions and certificate of authenticity.
