Higonokami - classic pocket knife

Look forward to the classic from Japan.
• Blade length 75 mm

Product information

- Blade thickness 3 mm
- Overall length 170 mm
- Weight 46 g
- Steel hardness 63 HRC

The functional handle is made of silver folded steel sheet.
The absolute highlight is the knife blade of the Hígonokami. This was forged from high quality blue paper steel.
The blade is sharpened on both sides and provided with a signature stamp.
The folding knife is characterized by a very simple design, which does not have a blade lock.
The blade is held in the folded sheet metal handle by an axle rivet.

Higonokami - Japanese pocket knife was part of the obligatory basic equipment of a man in Japan.
