Delivery **Fri 13. Nov - Sat 14. Nov 2026**

Product information

Dimensions: Diameter 0.67 inch, height 15 mm
Grit size: 6000

Application:
Use the sharpening stone to create the unique, natural sharpening paste on your yellow wheel, bench stone or chunk.
Simply put some water on the bench stone and move the sharpening stone in circular motions.
Friction causes the water, shale and naturally embedded garnets (spesartines) to form a sharpening paste.
The sharpening paste remains on the surface of the dense natural stone and is the basis for easy and efficient sharpening of your knives and tools.
sharpening of your knives and tools.
The paste can be easily rinsed off with water after sharpening.

The sharpening stone is delivered in a cotton bag with sharpening instructions and certificate of authenticity.
