Product information

Size: 150 x 50 mm

The yellow Belgian whetstone has a grain size of up to 8000 and a garnet content of up to 42%.
Quality II: extra-fine may have slight blemishes, but these do not affect the sharpening properties.
The bench stone guarantees very comfortable and fast sharpening of cutting tools.
The yellowish 7-10 mm wear layer is bonded to a black slate backing. This slate is only used for stabilization.
Application with water.

Special feature: Steels up to 69 Rockwell can be processed.

The bench stone is supplied with a yellow rubbing stone (diameter 17 mm) in a cotton bag, product brochure, sharpening instructions and certificate of authenticity.

All prices include VAT plus shipping costs.
